

Mobile Mammography Screening

You are eligible for a mammography screening if –

- You are age 40 or over (some insurances allow a baseline screening between 35-39, check with your insurance carrier)
- You can obtain a prescription from your doctor
- You can obtain your previous mammography films (we can assist you with this process)
- You do not have a new breast problem (such as lumps, skin change or nipple discharge)
- You are not currently being treated for breast cancer or have not been diagnosed within the past three years
- You can enter the van on your own and stand alone for the mammogram
- You are not pregnant
- You are not currently breast-feeding or have not breast-fed within the last 9 months
- You do not have breast implants
