**VIGAMOX--MORNING,NOON AND NIGHT    DUREZOL--MORNING AND NIGHT FOR 10 DAYS THEN NIGHT ONLY FOR 1 WK    PROLENSA--MORNING ONLY**

**Techniques for placing eyedrops in eye**

1. Lie flat on a couch or bed
2. Pull the lower eyelid down in the center to make a larger target
3. Hold the bottle 2” above the eye and place the eyedrop in the pocket of the lower eyelid
4. Close the eye without blinking for several minutes to let the drop absorb

Fill in circles after you instill your drops. ○

**A PRESCRIPTION FOR VIGAMOX, DUREZOL AND PROLENSA  
WILL BE SENT INTO YOUR PHARMACY THE THURSDAY BEFORE YOUR SURGERY!**
