

Patient Notify™

The most advanced and flexible appointment reminder system that automatically tailors information by appointment type

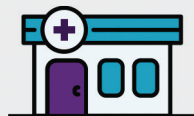

“With Patient Notify we have seen a drop in our no-show rates and have been able to decrease demands on staff.. We communicate appointment specific information and link electronic screening forms within the reminder which helps increase our efficiency and allows us to have greater appointment availability.

Practice Manager, Mendon, NY

Patient Notify isn't just an appointment reminder system, it's an appointment enhancement system.
